

Labour's Commuting-Colin must go!

Labour Councillor Colin Croft has moved to Yorkshire, but still insists he's representing his local residents. He claims his allowances as before, but does admit that 404 miles is a bit of a round journey for 45 minute meetings or to attend Councillor surgeries. Rather than standing down at the May 2013 local elections, Cllr Croft has insisted he'll continue his term in office, outraging local Welwyn Hatfield residents!

We, the undersigned, call on the local Labour Party to recognise that local representation should never be taken for granted, along with tax-payers money. We call on both the Labour Party to act and for Councillor Croft to resign.
